September 14, 2009
Agenda Item 4.5

Memorandum

Date: August 25, 2009
To: Plans and Programs Committee
From: ACTAC
Subject: Job Access Reverse Commute (JARC) Small Urbanized Area Fund Application

Action

It is recommended that the Board approve the Livermore Amador Valley Transportation Authority (LAVTA) application for \$323,225 of Job Access Reverse Commute (JARC) Small Urbanized Area Funds. The funds would be used to continue providing service on LAVTA's Wheels' Bus Route 14. Route 14 transports residents in the central, residential district of Livermore to downtown business district employment sites. Livermore is the only city in Alameda County that is eligible for Small Urbanized Area funds. JARC Small Urban Area applications must be submitted to Caltrans by October 30, 2009. At their meeting on September 1st, ACTAC recommended the Board approve the application.

Next Steps

The recommended JARC Small Urbanized Area program will be presented to the CMA Board for approval at its September meeting, followed by submittal to MTC in October.

Discussion:

The goals of the JARC Small Urbanized Area Program, administered by Caltrans, are to improve access to transportation services to employment and employment-related activities for low-income individuals and welfare recipients and to transport residents of urbanized areas and non-urbanized areas to suburban employment opportunities. Livermore is the only area in Alameda County that is eligible for JARC Small Urbanized funds. The Central residential district in Livermore, which is served by Route 14, has a low income share of 21 percent with more than 70 CalWorks families in the service area. Route 14 has been funded by the LIFT (Low Income Flexible Transit) and JARC since 2002.
